

UNIQUE DEVICE IDENTIFICATION

Intended For Health Care Professionals In The United States

This website provides UDI information at the point of use in support of rapid and accurate device identification. Users can acquire the UDI-DI barcode, create post-case logs to track what is used during surgery, create, share and print custom ortho set inventory sheets, and acquire an Excel or PDF GTIN download. The UDI information provided on this website is limited to the Johnson & Johnson hospital medical devices portfolio of products.

- Manage inventory
- Create & share custom procedure sets
- Acquire a UDI-DI barcode

Product Search:

- Product UDI-DI through wildcard product search function
- Optional post case implant information
- Option to download case information to Excel or PDF
- Barcode capture via on-screen display or PDF generation

GTIN Download:

- By Operating Company
- Provides the following attributes:
 - Product Code #
 - GTIN
 - Product Description
 - Unit of Measure
- PDF or Excel Downloads available

My Set Templates & Custom Set Template:

- Manage, create, and share custom sets
- Generate set inventory forms
- Barcode capture via PDF generation
- Optional post case information

PROCESS

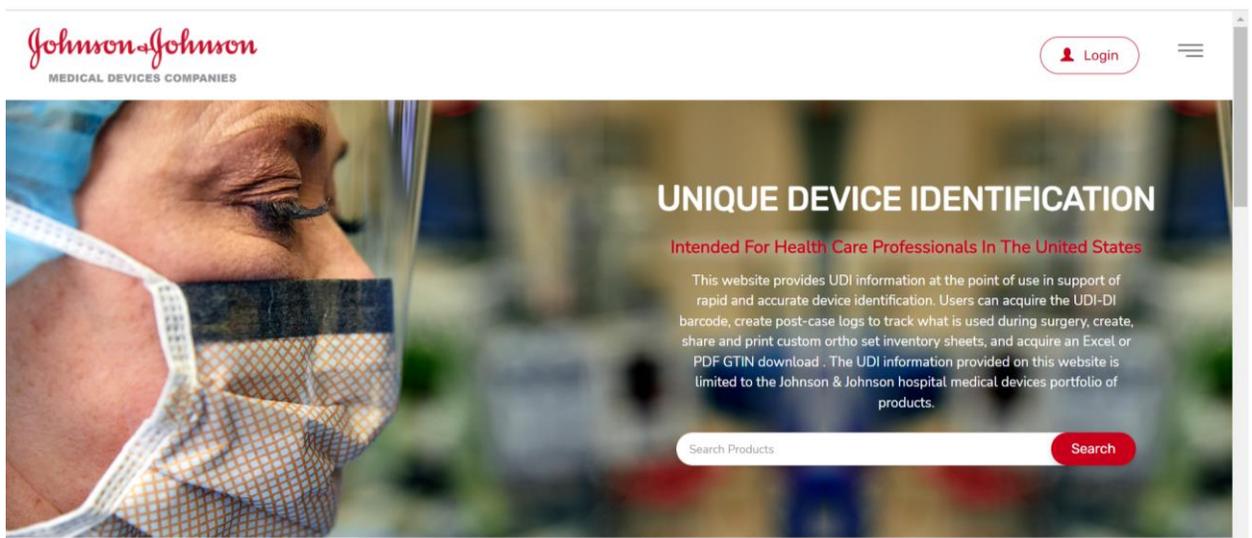

This section contains step-by-step instruction on how to navigate the [Johnson & Johnson](#) UDI website.

1. Access UDI Website

1.1 Product Searches

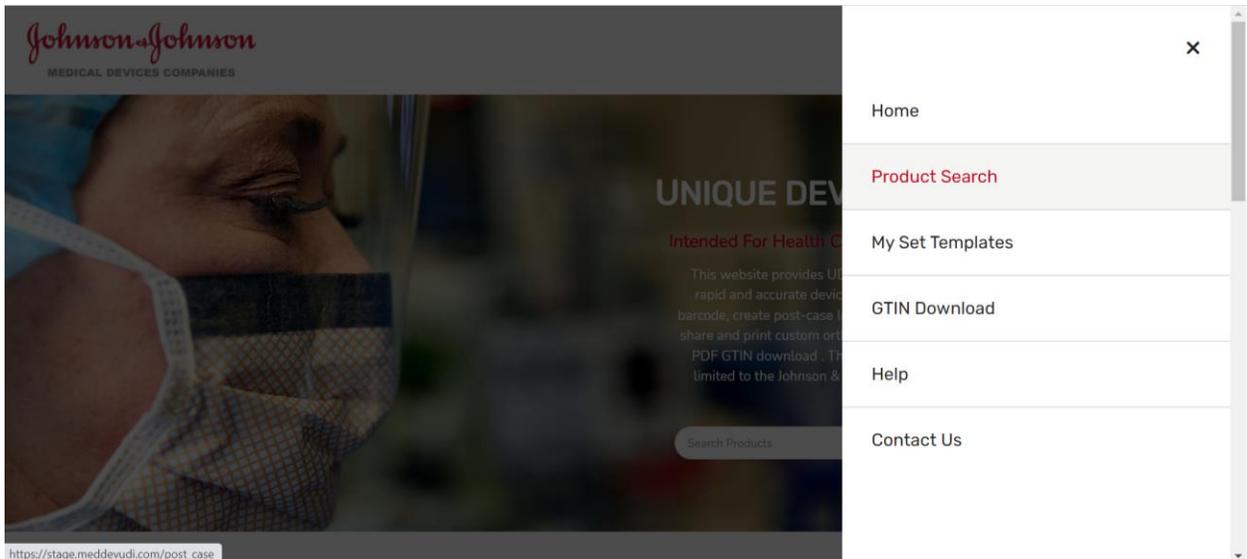

There are two ways to search for a product:

Step 1: Enter your search criteria in the **Product Search** fields and select **Search**.

For more detailed search criteria, select the Product Search option from the Hamburger Menu icon (≡) to the right of the Login button.

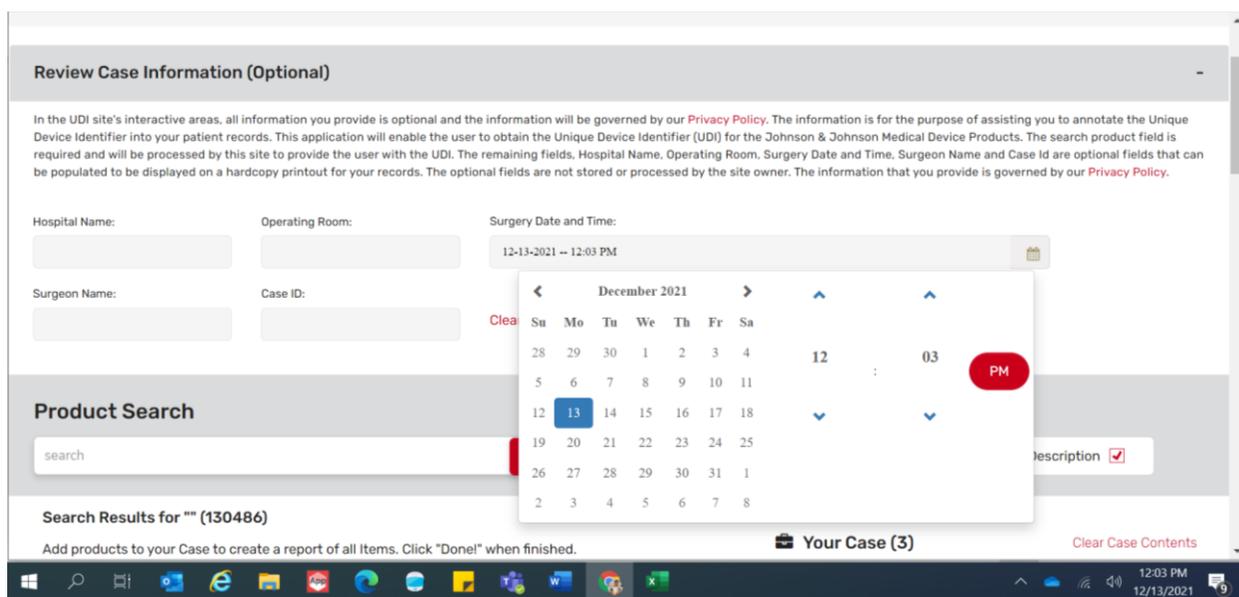

This method provides more detailed search criteria options and provides an area to center specific case details that will appear within Your Case details.

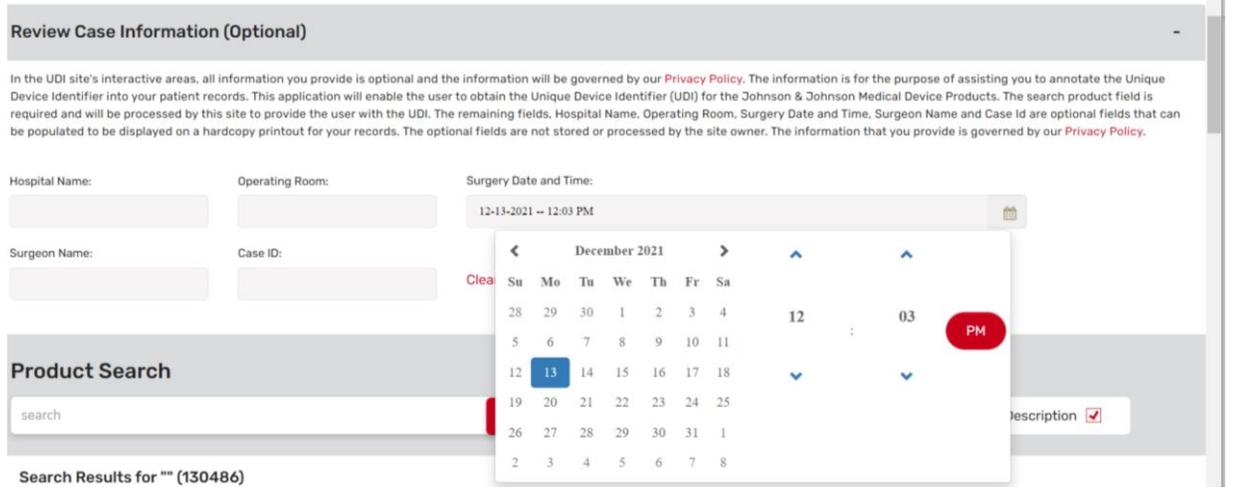

1.2 Create a Case Log (optional)

Step 2: To create a case log, Enter Hospital Name, Operating Room, Surgery Date/Time, Surgeon Name, Case ID using the fields provided.

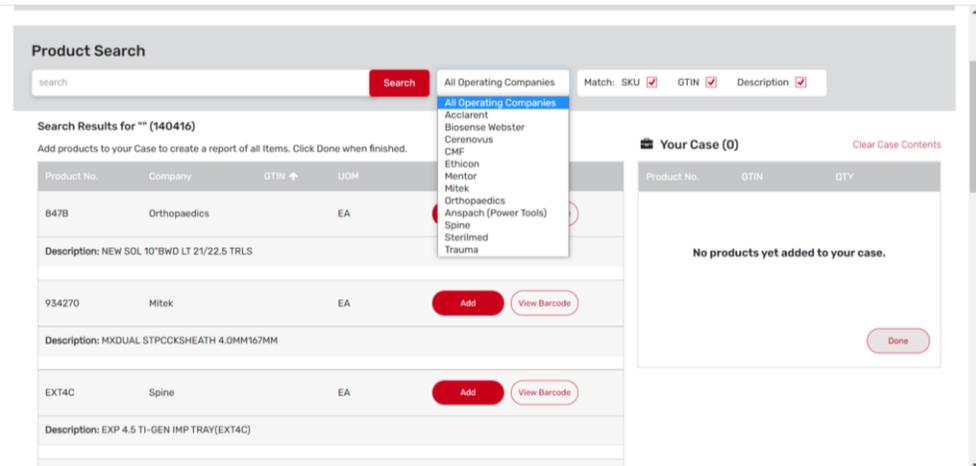

- i. Click the Calendar icon to select a date and time.

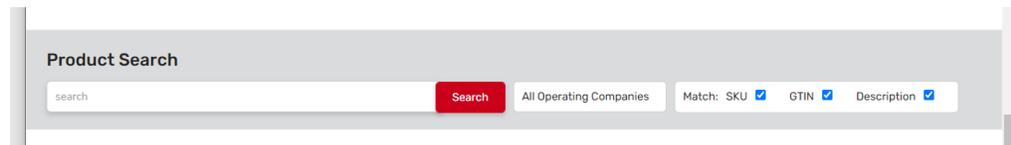

- ii. Click outside the date/time window to enter the selected date/time into the fields.

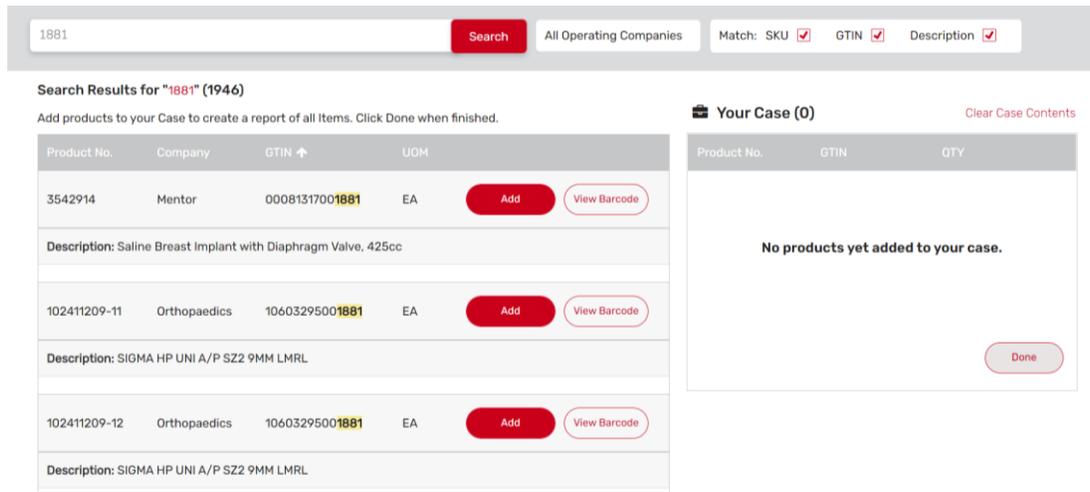

- iii. To search by operating company, select your Operating Company from the menu options.

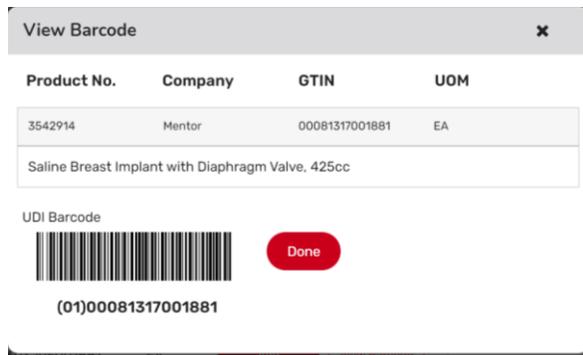

- iv. You can narrow your search criteria by selecting SKU, GTIN, and/or Description.

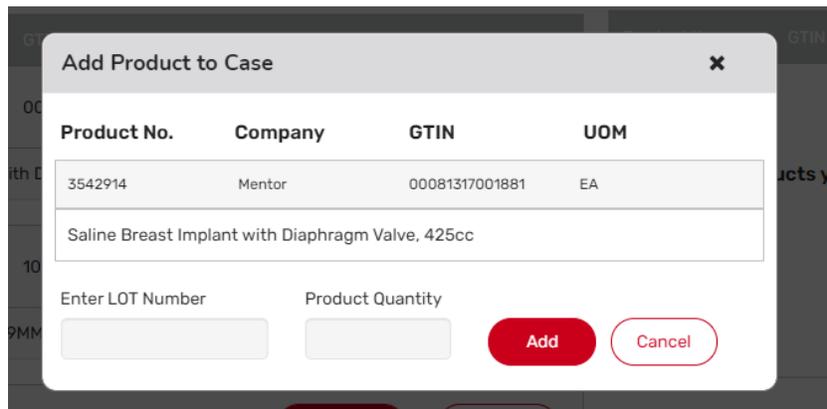

- v. Click **Search** to generate the search results based on your criteria.

- vi. To view a barcode of the product GTIN, click the View Barcode button on the Search Results screen.

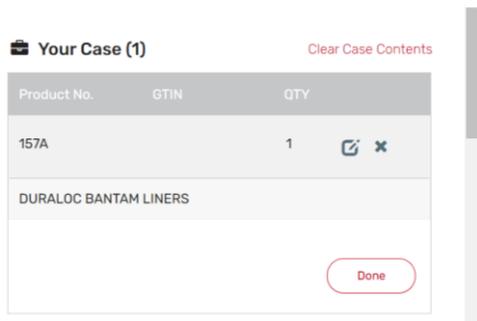

- vii. Click **Add** to add a product to your Case.

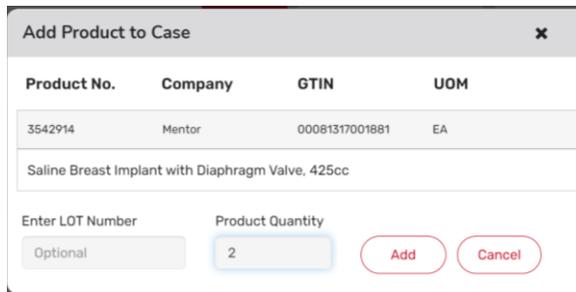

- viii. Optionally, you can enter product-specific production identification information using the following options:

1. Enter the Lot Number. If you do not have a Lot Number, the Case Log will show a blank.
2. Enter the Product Quantity. If you do not have a Product Quantity, it will default to a quantity of 1.
3. Click **Add** to add the selected product to the Your Case display.
4. Click **Cancel** to return to the previous screen.

ix. To edit products in Your Case, click the Pencil icon.

x. You can change the LOT Number and Product Quantity.

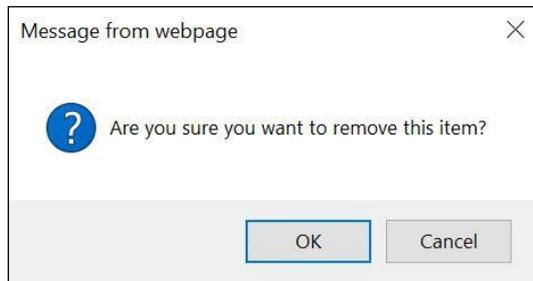

xi. Click **Add** to update Your Case.

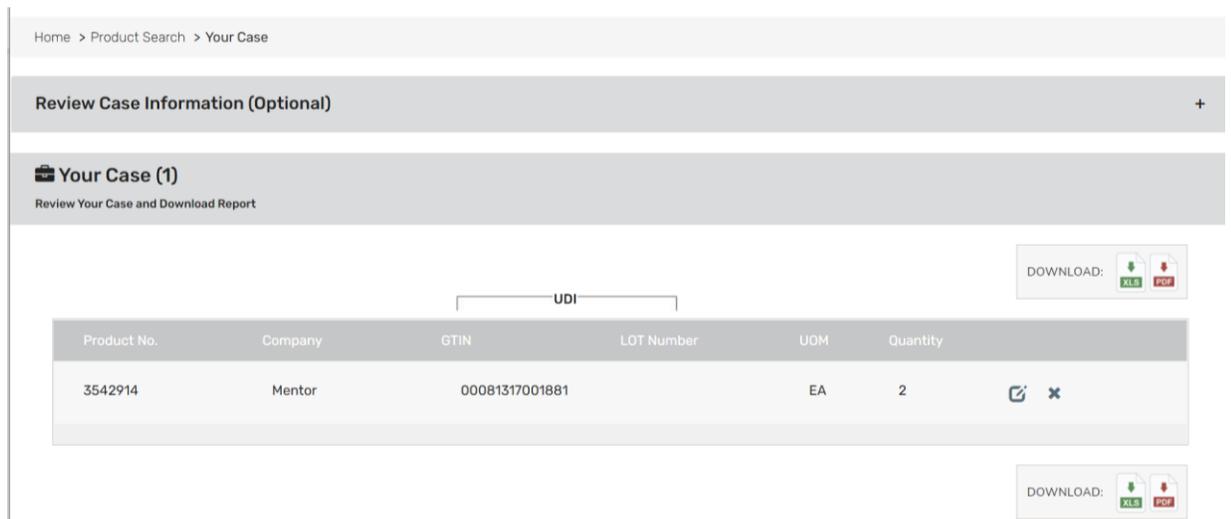

In the above example, Product Quantity was changed to 2.

- xii. To delete a product, click the “X” on **Your Case**. The following message confirms your action request.

- xiii. Click **OK**. The product is removed from Your Case.
- xiv. After you have entered all your products for Your Case, click **DONE!**

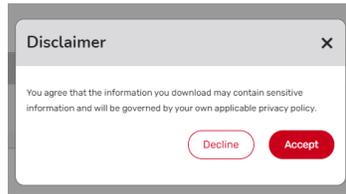

Product No.	Company	GTIN	LOT Number	UOM	Quantity
3542914	Mentor	00081317001881		EA	2

Note: You can also Edit or Delete products from this page.

- xv. Click the Excel button to download your case into Excel.
- If you are using Google Chrome, it appears at the bottom left of your browser. Otherwise, follow the procedure for your browser.

- Click on the Excel document to open it, then accept the Disclaimer.

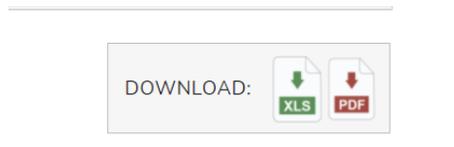

- Your Case Name will be title of the Excel file

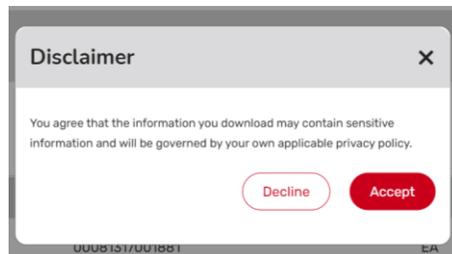

- Click on the file to open the excel file

	A	B	C	D	E	F	G	H	
1	Product No.	Company	GTIN	LOT No.	UOM	QTY	Case Id	Operating Room	Hospital n
2	3542914	Mentor	00081317001881		EA	2			
3									
4	This document contains sensitive data that is highly restricted								
5									
6									

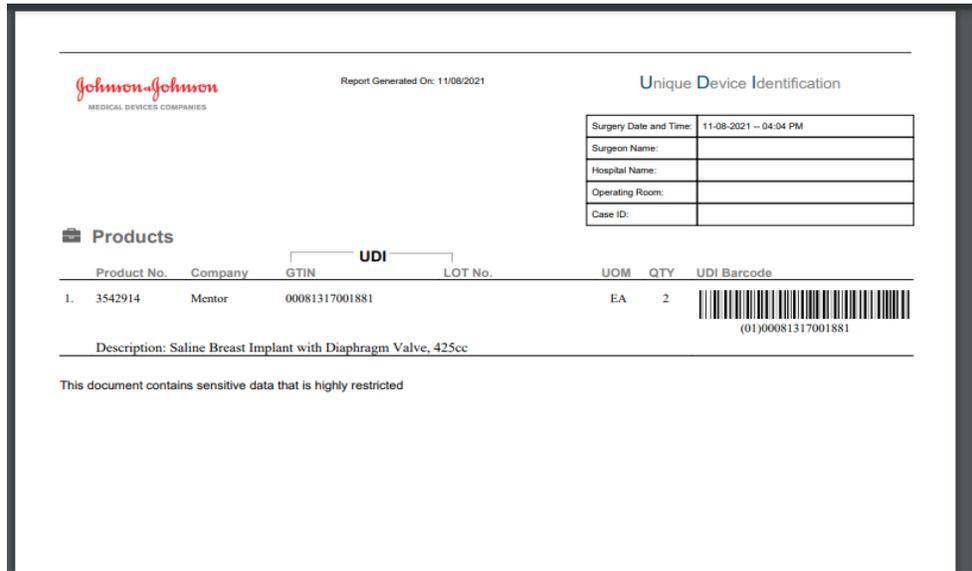

- To open your case as a PDF, select the PDF icon.

- Accept the disclaimer.

- If you are using Google Chrome, a new tab opens to display your case.

- xvi. You can use the icons at the top, right of the page to view, save, or print the document.

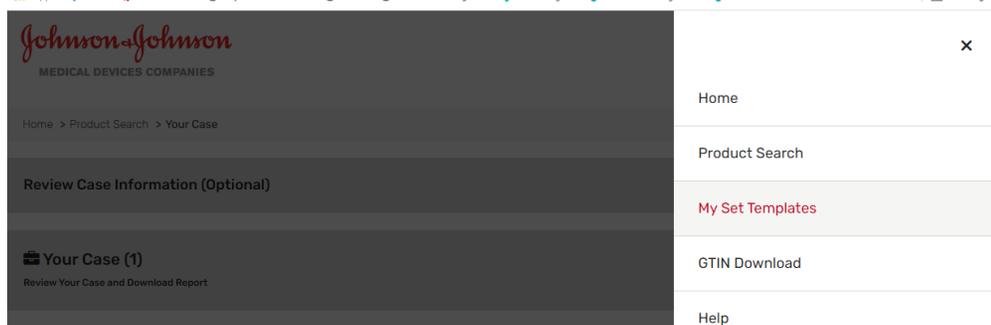

2. Using My Set Templates

Before you can create and manage custom sets, you must create a user account.

3. Create a user account

To create a user account:

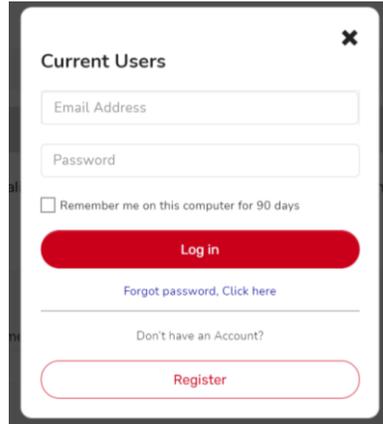

- i. Select the My Set Templates tab.

- ii. Click the Login icon.

The Current Users dialog opens.

- iii. Enter your information and then click **Register**.

Register For UDI

Registering for UDI will give you access to the full functionality of the site. Including being able to create your own kits and save them for re-use later, share them with other users, and print any kits you've created.

* Indicates fields that are required

First Name: Last Name:

*Email Address:

Passwords must be between 10 and 20 characters in length and contain one of each of the following characters: - lowercase character (a-z), special character (@#%&), Digit(0-9)

*Password *Confirm password

Passwords match:
